

HSC-1010W

IP Cloud Smart Building Management Server

The HSC-1010W is the management server for HomeScenario Smart Building system. It provides centralized building management features for integrating IP Intercom, security alarm, access control, text message editing/distribution, building automation, smart home, device configuration and maintenance, management center video server, system log/report, etc.

The HSC-1010W can also integrate with 3rd party systems to extend the scope of service for smart building. It is a powerful tool for large-scale property management such as residential apartment, hotel, office, factory, school, etc.*

**Note: Project-based integration with 3rd party product systems subject to further discussions on specification requirements and economics.*

HSC-1010W

IP Cloud Smart Building Management Server

Hardware Specifications

- x86 desktop architecture
- Dual core >2GHz CPU
- >4GB DDR4 >128GB SSD
- Dual LAN ports
- Windows IoT, Linux VM

(**Product specifications subject to change without notice.)

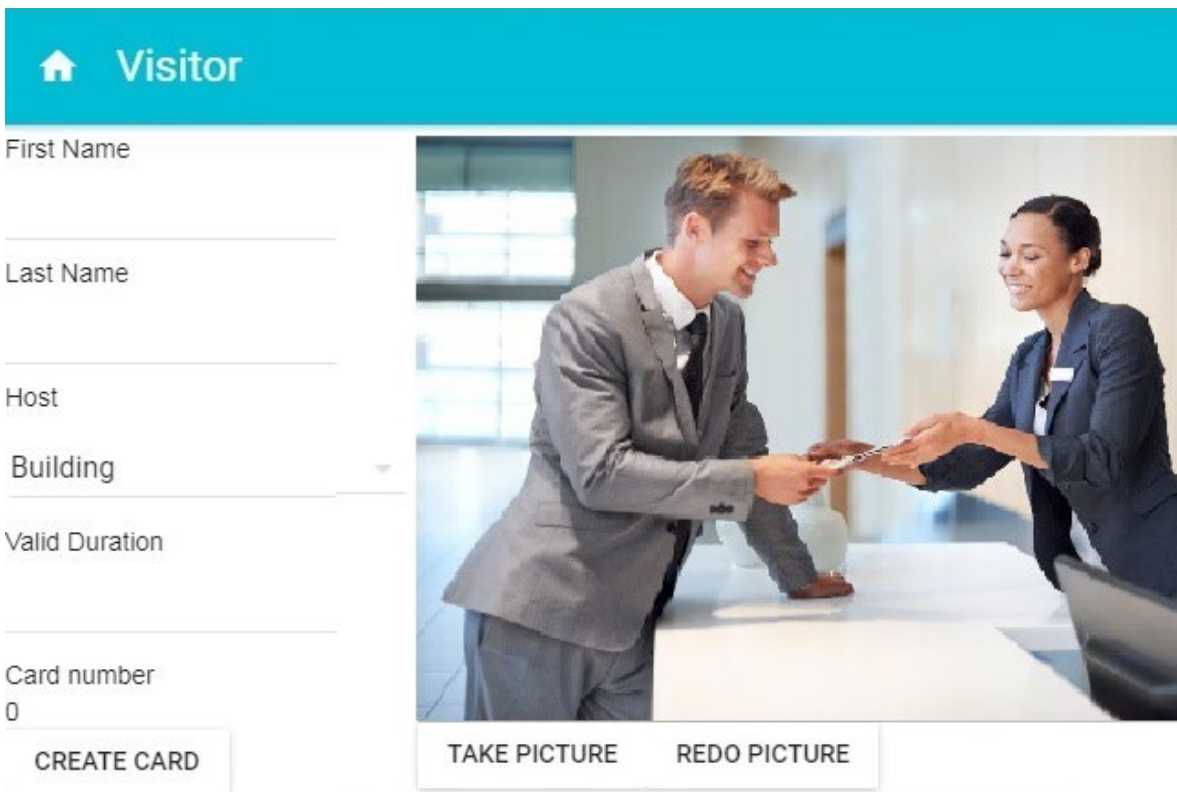

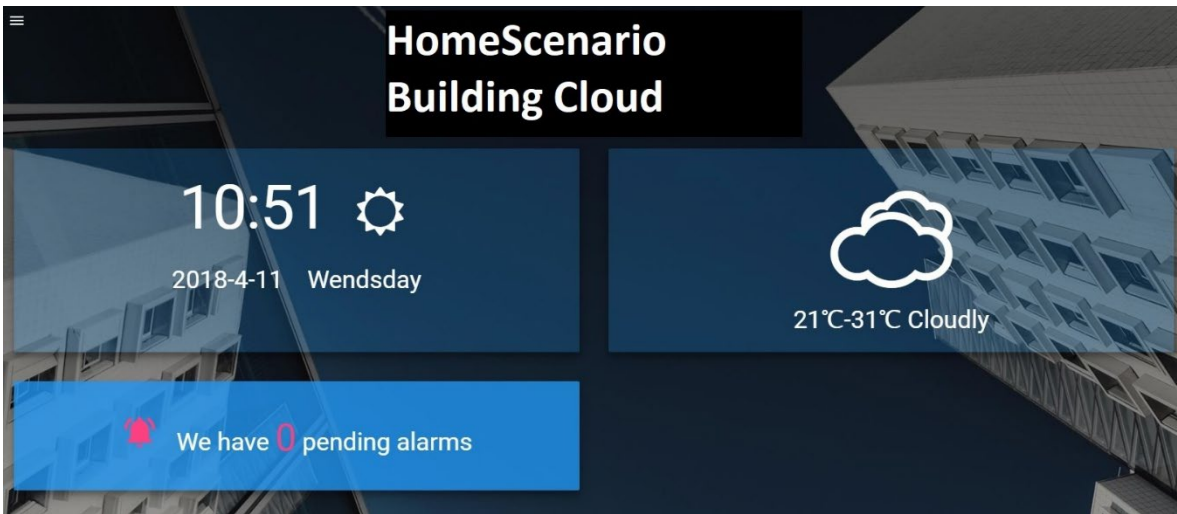

Features

- Equipment status query, maintenance, remote firmware upgrade
- Community information announcement editing and distribution, which can be broadcasted or sent to single or multiple indoor panels
- Security alarm event notification, record, process
- Networked access control for door, elevator, parking, including user database/access policy/scheduling etc.
- Intercom system event log and query
- System can be expanded via software modules

About HomeScenario

HomeScenario, Inc. offers cloud-enabled solutions for IP & Analog Intercom, Alarm & Access Control, Video Surveillance, Home Automation, Audio/Video, and Energy Management. Integrating technologies of wireless control and broadband networking, the HomeScenario solutions make comfort, convenience, safety, security, and eco-friendliness available without the need of extensive and costly remodeling. Our products are designed to work seamlessly with systems such as lighting, sensor alarm, thermostat, door access, window shades, security monitoring, home theater, and more. With power features and flexible architecture, HomeScenario solutions can fit various requirements of apartment, villa, hotel, dormitory, office, and commercial building.
